District Coding Night for families with students in kindergarten through 5thgrades- Join us for a night of computer coding! There is no experience needed. Kids and parent teams will tackle self-paced coding puzzles through code.org and will write their first lines of code together! Don't miss this district-wide event.

Code.org is a non-profit organization dedicated to expanding access to computer science. Their vision is that every student in every school should have the opportunity to learn computer science, just like biology, chemistry or algebra. Through their annual Hour of Code campaign, students from all backgrounds learn how to code right where they learn – in their schools. There will be two opportunities for families to attend the coding sessions.
